## EXPERIENCE

### World Bank Group Treasury, Partnerships and Advisory Department

March 2026 – Present

*Junior Analyst*

*Washington, DC, USA*

- Support Engagement Managers in preparing technical advisory missions to central banks, pension funds, sovereign wealth funds, and deposit insurance corporations on governance, strategic asset allocation, portfolio management, and risk management.
- Consolidate internal databases to streamline the path from data generation to management-report publication, building dashboards and scripts that aggregate, process, and update data from multiple sources.
- Measured the impact of RAMP workshops on the technical knowledge of participants from member institutions through pre- and post-workshop quizzes.

### The World Bank Treasury

May 2025 – August 2025

*Treasury Summer Intern*

*Washington, DC, USA*

- Developed AI-based automation solutions for the Financial Technology (TREFT) & Banking Operations (TREBK) teams; engaged with software providers and attended conferences on AI and blockchain.
- Assisted in executing interest-rate and cross-currency swaps for liquidity and loan-fixing purposes for the Asset Liability Management and Policy (CMIAP) team, comparing counterparty quotes and pricing the swaps; calculated 30-day liquidity projections for IBRD.

### Universidad Privada Boliviana

October 2024 – February 2025

*Research Assistant*

*Cochabamba, Bolivia*

- Selected by the UPB Chancellor as the top economics student to co-author an MBA teaching case with peers from other faculties. Conducted research on the 'Misicuni Multipurpose Project', including interviews with key decision-makers.

### DATA X S.R.L.

September 2024 – October 2024

*Data Analytics Intern*

*Cochabamba, Bolivia*

- Designed a magazine-style consulting report integrating macroeconomic, international-trade, and market analysis; built an automated Python, VBA, and OpenAI workflow to generate customized reports for regional international-trade merchants.

### Research Centre in Economics and Entrepreneurship

January 2024 – March 2024

*Research Assistant*

*Cochabamba, Bolivia*

- Assisted in developing the paper "Comparative analysis of traditional econometric and neural network models in inflation prediction across 20 American countries" under P. Córdova, Ph.D.; led time-series data collection; trained co-interns in Refinitiv Eikon, Excel, Stata, and EViews; directed (S)ARIMA forecasting models.
